Psychology

The School of Social Sciences

Chair
Robert L. Dipboye

Professors
Richard Bagozzi  
Jennifer George  
Kenneth R. Laughery  
Randi C. Martin  
H. Albert Napier  
Daniel Osherson  
James Pomerantz  
David J. Schneider  
Ronald N. Taylor  
Michael J. Watkins

Adjunct Professors
John H. Byrne  
J. Maxwell Elden  
William C. Howell  
Susan Jerger  
Katherine A. Loveland  
John E. Overall  
Anthony A. Wright

Professor Emeritus
John Brelsford

Associate Professors
Richard R. Batsell  
Sarah A. Burnett  
Steven C. Currall  
David M. Lane  
Miguel A. Quiñones

Adjunct Associate Professors
Jocelyne Bachevalier  
Lindley E. Doran  
Deborah A. Pearson  
Kevin C. Wooten

Assistant Professors
Lyle Brenner  
Michael Byrne  
Mikki Hebl  
Geoff Potts  
Tony Ro

Adjunct Assistant Professors
Janice Bordeaux  
Betty S. Sanders  
Vicki V. Vandaveer  
Heidi Ziemer

Adjunct Instructors
Roberta M. Diddel  
Heidi Schweingruber  
Mihriban Whitmore

Degrees Offered: B.A., M.A., Ph.D.

The undergraduate program offers the core preparation recommended by the nation’s leading graduate schools of psychology, with advanced courses and research opportunities to fit individual needs. Programs of study may be structured around prospective careers in medicine, law, business, and education. Program emphasis in graduate study is on doctoral training, which requires course work in memory, cognition, engineering and industrial/organizational psychology, social psychology, and methodology. Faculty research interests include cognitive psychology (human memory, psycholinguistics, and information processing), cognitive neuropsychology (memory and language disorders), human factors (safety and reliability, risks and warnings, and human-computer interaction), and industrial/organizational psychology (personnel selection, training, work motivation, and group processes).
Degree Requirements for B.A. in Psychology

For general university requirements, see Graduation Requirements (pages 16–18). Students majoring in psychology must complete 29 semester hours in departmental courses, including the following required courses.

**Core Courses**
- PSYC 101 *Introduction to Psychology*
- PSYC 202 *Introduction to Social Psychology*
- PSYC 203 *Introduction to Cognitive Psychology*
- PSYC 339 *Statistical Methods—Psychology*
- PSYC 340 *Research Methods* (no substitutions or transfer credits allowed for PSYC 339 or 340)

At least 1 course from each block

**Block 1**
- PSYC 308 *Memory*
- PSYC 309 *Psychology of Language*
- PSYC 350 *Psychology of Learning*
- PSYC 351 *Psychology of Perception*
- PSYC 360 *Thinking*
- PSYC 362 *Biopsychology*

**Block 2**
- PSYC 329 *Psychological Testing*
- PSYC 330 *Personality Theory*
- PSYC 331 *The Psychology of Gender*
- PSYC 332 *Abnormal Behavior*
- PSYC 460 *The Psychology of Motivation*

**Honors Program.** Qualified students may apply to the honors program during preregistration in the spring semester of their junior year. A written proposal for the project must be submitted by the end of the second week of classes in fall of the senior year, and the faculty will decide on final admission to the honors program by the end of the fourth week of classes. Admission to the honors program requires a psychology GPA of 3.5 and an overall GPA of 3.3, completion of PSYC 339, and completion or concurrent enrollment in PSYC 340. To graduate with departmental honors, students must complete the requirements for the psychology major, a written honors thesis approved by a faculty committee, and other requirements as determined by their honors committee (see Honors Program, page 32). Detailed information about the honors program is available from the instructor of the course or the departmental office.

Degree Requirements for M.A. and Ph.D. in Psychology

For general university requirements, see Graduate Degrees (pages 60–65). For both M.A. and Ph.D. degrees, students must complete a research thesis, including its public oral defense, and accumulate 60 semester hours for the Ph.D. and 30 hours for the M.A. Course work includes required courses in certain areas, plus whatever offerings are available in the student’s specialty area, either cognitive/experimental, industrial/organizational/social, or engineering psychology. While competence in a foreign language is not required, students must complete an admission-to-candidacy procedure that should establish their expertise in their chosen specialty.

See PSYC (pages 504–510) in the Courses of Instruction section.
