

# Patriot BPE declares war on 'comrades'

There's few things I hate more than communists. And Sarah Pitre and Mark Lewis are communists.

They're also witches who sacrifice goats in the quad by the full moon and chase small children around with empty rifles. Once I saw them in McDonald's kicking that big purple guy Grimace repeatedly in the jimmy — and boy, did he grimace. Next time, Pitre and Lewis plan to use the Backpage as a forum for the most evil, tainted, anti-capitalist socialist propaganda this side of the wall.

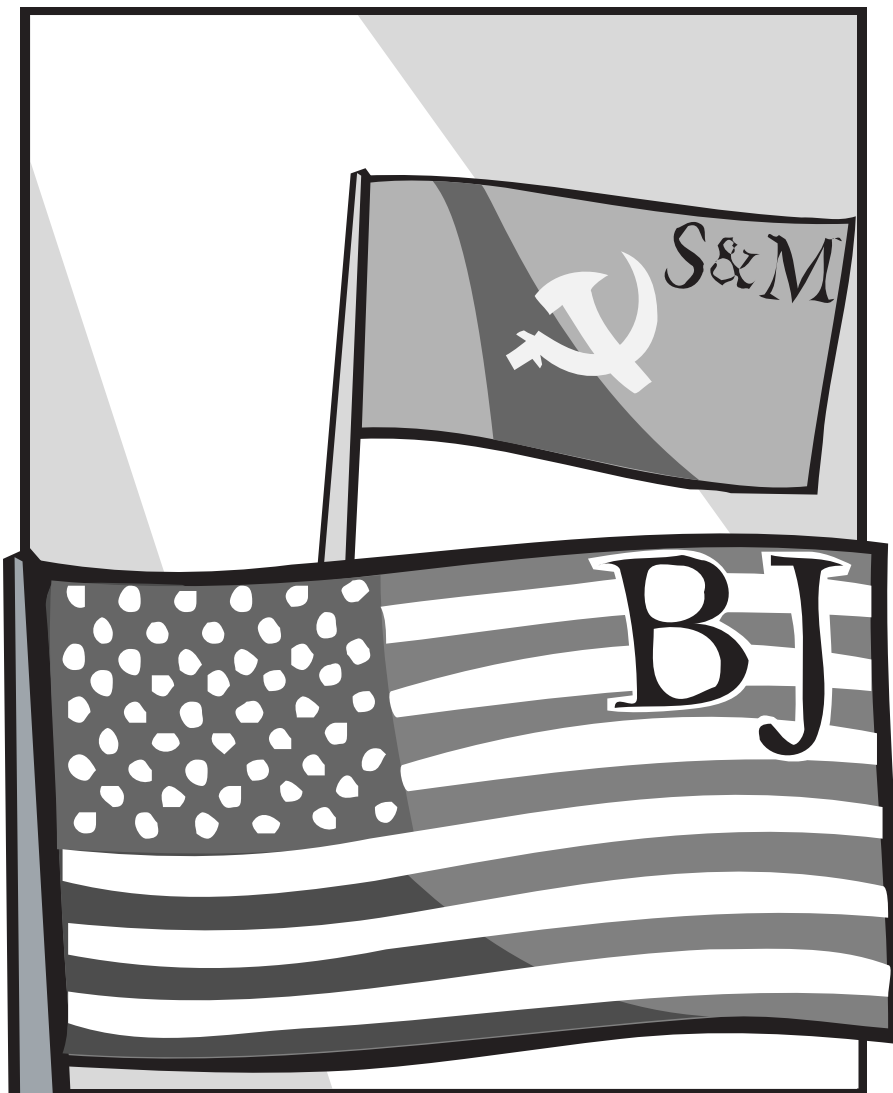

Last week, these two hooligans tried to distance themselves from my beloved and universally well-received Camacho-related antics. Negative feedback has not been an issue; all of my e-mails are from devoted fans who shower me with sweet praises of admiration and affection. I've never received more hugs from administrators than I did last week. And yet these two communists had the audacity to emphasize their work with a big S&M symbol. Well, clearly this S&M stands for Stalin and Marx.

In fact, hidden within the subtext of that accusatory article were subliminal mandates. Break down the text and you'll find several encrypted messages. The subject of sentence 34 — "Francisco and Scott" — translates into "eat small children." And the predicate of that same sentence — "fled to Mexico in stolen golf carts" — translates into "kill Ben Johnson, he is an unfunny monster." As a true patriot and a staunch defender of free speech, I think it's my duty to stop this red storm of stank hysteria in its tracks.

So I'm declaring war on those biatches.

And so now we stand on the threshold of a Backpage revolution. The *Thresher* office has become a war-zone. The other day, Lewis rolled a grenade under my chair in an attempt to frag me. Pitre left a dead squirrel in my lunchbox and ran my brother over with a steamroller. Now my beloved brother is crippled and two dimensional. He is so steamed at Pitre. I have placed mouse-traps in their shower stalls and bombs in their refrigerators.

Our two factions have both submitted manifestos to win the Rice community's love and support. Choose your side wisely, and God help you if you choose poorly.

## S&M Manifesto

Dr. Camacho is a nice man but Ben Johnson says mean things about him. We think this sucks goat balls. Free speech and the free-market economy also suck goat balls, or possibly heifer ovaries.

Zen is a nice man who accepts refugees from all impoverished countries to sleep in his basement. He has never done a damn thing wrong to nobody.

Have you ever seen how stressed out he looks when he walks by you and says, "Hey you! You are too fat! And how's your hometown?" To paraphrase the old adage, "If you can't say some-

thing funny, don't say anything at all. Ever. Or I will kill you with angry e-mails." Take the Soul to the hole.

By the way, if you support our Backpage, we'll provide you with a small animal to sacrifice every week! We'll also provide you with terrible economic and social hardship, unprecedented oppression and two wax candles.

A glorious dawn is upon us, comrades. Help us put Ben Johnson at the stake. Enjoy week after a week of a Backpage that is free of Camacho-slander and Britney Spears. Come to the red side. Support S&M.

## BJ Manifesto

I'm like most American guys. I like grilling, football, beer, "Baywatch", Howard Stern, *Star Wars*, *Braveheart*, irate administrators and lawsuits. Do you like kitty cats, beaches, trees, happy sunshine holidays and rainbow frosties? Well if you do, Ghandi, then you're livin' in a world of pacifism — and I hate Quakers almost as much as I hate Communists.

But if you like jackasses who stand on inkprint soapboxes, holding a forty in the left hand and slapping Britney on the rear with the right, well then there's a locker for

you, brother. We'll eat hot dogs and donuts and pee on scooters. We'll go to Fudd's everyday and eat red meat like dogs. We'll leave that purple guy Grimace alone.

This is my charge. You want a campus with an inflated currency, steroid-enhanced female athletes and old ladies with babushkas? Fly the S&M banner in your window. But if you believe in the constitution, if you believe in football, if you believe in the right to be a big jerk and your God-given right to get sued by overly sensitive people, then I say you support me, biatch.
