Student Responsibility

The university expects all Rice students to exercise personal responsibility over their actions. Their behavior should reflect a respect for the law and for their contractual obligations, a consideration for the rights of others, and shared standards of considerate and ethical behavior.

Rice encourages self-discipline, recognizing that effective student government, including judicial processes, and the integrity of the honor system depend on the willingness of all students to meet community standards of conduct.

The university, however, reserves the right to insist on the withdrawal of any student whose conduct it judges to be clearly detrimental to the best interests of either the student or the university. The appropriate authorities take such action only after careful consideration.

No individual or group may use the name of the university or one of its colleges without prior approval of the university or the college.

The Honor System

One of the oldest and proudest traditions at Rice, the honor system is administered by the Honor Council, whose student members are elected each year by the student body. Adopted by a student vote in 1916, the honor system has remained essentially the same since that time but for changes in the procedures and membership of the Honor Council.

Students take all written examinations and complete any specifically designated assignments under the honor system. By committing themselves to the honor system, all students accept responsibility for assuring the integrity of the examinations and assignments conducted under it. The Honor Council is responsible for investigating reported violations and for conducting a hearing when the facts warrant. The assistant dean of student judicial programs, who reviews the results of the investigations and hearing, considers the council’s recommendations when issuing penalties.

The Honor Council conducts an ongoing program to acquaint new students and faculty with the honor system.

Faculty Grading Guidelines

The Committee on Examinations and Standing has drawn up the following guidelines on grading. Additional information is available on pages 35–37.

• The evaluation of the student’s performance in a course and a decision on the appropriate grade is the responsibility of the designated instructor or instructors in the course.

• No student should be given an extension of time or opportunities to improve a grade that are not available to all members of the class, except for verified illness or justified absence from campus. Students who have three scheduled final examinations in two consecutive calendar days may, however, take one of the examinations at another time. Except for scheduled exams, no course assignments may be due between the last day of classes and the last day of the final examination period.
• Students in independent study courses are not to be allowed an extension beyond the time when grades are due. Faculty are to submit grades at the end of the semester for such students based on work completed during the semester. The instructor directing the independent study bears responsibility with the student for ensuring that the work undertaken is appropriate to the span of a semester and for determining the degree credit to be received.

• The basis for grading and the expectations on all written assignments or tests should be clearly explained to the class in advance, preferably in writing at the beginning of the semester. The instructor should explain clearly which assignments or homework are covered by the honor system and which are not. To prevent allegations of plagiarism on written assignments, students should be warned that all direct and indirect quotations from other sources should be properly acknowledged. The instructor should explain the extent to which the student’s paper is expected to be independent of the references and clearly distinguishable from them.

• Instructors should be willing to give any student an explanation of his or her grade as consistent with the grading for the rest of the class. For this reason, the committee urges the faculty to preserve all examinations and written material not returned to students as well as grade records for the semester for at least one month into the following semester so that students may, if they wish, review with their instructor the basis for the grade received.

• Instructors may not change a semester grade after the grade sheet has been submitted to the registrar except for a clerical error in calculating the grade. This is a long-standing university rule of which the faculty are reminded by the registrar at the end of each semester. It is designed in part to protect the faculty from student pressure for grade changes. All other grade changes, including retroactive change to withdrawal or incomplete, must be approved by the Committee on Examinations and Standing on the basis of a written petition from the student and on information from the instructor.

• There is no university requirement that a final examination be given in a course. It is university policy that final examinations that cover more than the material since the last examination, that are the only exam in the course, or that are comprehensive of the entire course may be given only during the final examination period. Such examinations may not, for example, be labeled “tests” and administered during the last week of classes. Final examinations are normally of three hours duration. Faculty who, under exceptional circumstances, wish to give longer examinations may do so only if the exam is scheduled as take-home. Under no circumstances may final exams exceed five hours. The “due date” for all take-home final exams is the end of the examination period.

• First-year students receive midsemester grades around the eighth week of the fall and spring semesters so that they can, if advisable, enroll in tutoring or drop a class for which they may not be prepared. Faculty who teach first-year students in any of their classes will be asked to submit grades of standing for these students during the seventh week of the semester and should schedule the grading of tests, quizzes, or homework assignments accordingly. These grades are not recorded on the student’s transcript nor calculated in the grade point average, but they are important indicators for students and their faculty advisers.

• Departments using teaching associates, adjunct professors, or visiting faculty of any kind should make sure these teachers are familiar with Rice grading procedures. A regular faculty member who is well-versed in the grading guidelines should be assigned to assist such instructors.
The chair of the Committee on Examinations and Standing or the vice president for student affairs will be glad to advise any faculty member faced with exceptional circumstances that may justify special consideration. Students may petition the committee concerning the application of these guidelines. Suspected or possible violations of the honor system should be submitted to the Honor Council.

**Library and Computer Networks**

Students seeking information for course work and independent or graduate research may visit Fondren Library at the heart of the university campus, or they may access any of a number of campus computing labs and networks.

**Fondren Library**

Fondren Library provides a wealth of resources for study and research. Its permanent collection numbers 2 million volumes, more than 2.5 million microforms, and 14,000 current periodical and serial titles, not to mention 28,000 titles on audiotape, videotape, and compact disc. The library is well equipped to meet the needs of students and faculty.

Students exploring the library’s extensive holdings can take advantage of its networking systems. With Macintosh, PC, and UNIX workstations scattered throughout the first floor of the library, students looking for information have their choice of print or electronic media. Network connections reach to all floors of the library, and circulating Macintosh Powerbooks are available for students to use in the building.

If they want to postpone a trek to the library, students may use the campuswide information system, RiceInfo, to access the library’s on-line catalog. RiceInfo also links students to a wide variety of literature indexes and a growing collection of full-text reference sources as well as primary literature.

The library staff is committed to the use of evolving information technologies, whether in helping to develop “electronic studios”—collections of applications and tools tailored to a particular subject or need—or in easing user access to networking systems. The library’s electronic resources also include multimedia packages and large data sets, and students will find many specialized research tools available, such as computer programs for text analysis and geographic information systems software.

Fondren Library provides a home for a number of separate collections. It is a federal depository for U.S. government publications, patents, and trademarks. The Woodson Research Center holds the library’s rare books, manuscripts, and university archives. The library also houses the Alice Pratt Brown Fine Arts Library. The Business Information Center is in Herring Hall.

The library has an open-shelf policy that encourages creative browsing. Students may use a host of special facilities, from individual study carrels to group-study rooms and from audiovisual equipment and electronic workstations to microform reading carrels. Photocopiers are available in the library.

Fondren Library operates on the philosophy that a library is more than a collection of books. It is, instead, an essential campus resource, with its knowledgeable staff and up-to-date technologies—an inviting place that introduces students and faculty to a range of rich possibilities as they pursue their independent inquiries.

**Library Endowments**

Friends of Fondren Library Endowment
Hobby Foundation Endowment
Henry Malcolm Lovett Endowment
John H. Wright Endowment
Endowed Book Funds

These endowed book funds supplement university-budgeted funds for book acquisitions, helping to meet the instructional and research needs of faculty and students. Each of these book funds was established by gifts or bequests from alumni and friends, corporations, or foundations.

Alice Gray Sears Akin Library Endowment Fund
Ralph A. Anderson, Jr., Memorial Fund in the Library
Robert Cyrus Allen French and Spanish Periodicals Fund
Henry Leigh Bartlett Fund
George R. Brown Library Fund for Engineering
Mr. and Mrs. Emory T. Carl Endowed Fund for Fondren Library
Robert Foster Cherry Endowment Fund
Raymond and Florence Cook Memorial Fund
Cook Family Book Fund
Billy Ed Daniels Endowed Book Fund
Ruth Daugherty Memorial Fund
Alice Crowell Dean Endowment of Fondren Library
Frank M. and Betty G. Dawson Fund for Chemical Engineering
Juanita Swope Depenbrock Fund in Fondren Library
Dee Speed and James H. Elder, Jr., Endowed Fund
Marilyn MacGregor Ekeroot Book Fund
The Endowment Fund for Special Collections
Catherine Goodrich Fay Endowed Book Fund
Adele Cambeilh Gehret and Charles Arthur Gehret Book Fund
Margery A. Halford Endowed Fund
Charles W. Hamilton Fund
Oliver and Beatrice Unsworth Harrison Book Fund
Hispanic Studies Endowed Book Fund
Pat and May Keating Library Fund
Lucius N. Littauer Judaica Book Fund
Charles Fred and Lillian Kimpton Jewett Library Fund
Mary Elizabeth Johnston Endowed Book Fund
Roderick Jones Architectural Endowment Fund
Winifred Graham Johnston Memorial Fund for English Literature
J. Frank Jungman Memorial Fund
Edward Watson Kelley Memorial Fund
Frederica Killgore Fund for Fondren Library
Floyd Seyward Lear Bequest
Harold M. Lacy, Jr., Endowed Book Fund
William Alexander Kirkland Endowed Book Fund
Andrew Louis Endowed Fund for Germanic Studies
Rodney H. and Judy E. Margolis Library Fund
Ted J. Montz Endowed Fund
Alan and Lorel McKillop Endowed Book Fund
Marjorie B. Paxson Fund
Edward Arrants Peden Memorial Fund
William Addison McElroy Family Endowed Fund
George and Ann Powell Memorial Fund
Dr. P. Quillian Library Endowment Fund
Anne L. and Frederick D. Rossini Library Fund
Elizabeth Goodson Rodell Memorial Fund
Peggy Shiffick Collection for Environmental Studies
Society of Rice University Women’s Fondren Library Endowment
Pender Turnbull Woodson Research Center Endowment
Peter Fondren Underwood Fund
Waggaman Sisters Fund
David McNeill Whightsel Endowed Fund for Humanities
Willoughby C. Williams Library Endowment Fund
Owen Wister Literary Society (O.W.L.S.) Library Endowment

Owlnet Computing Labs

Owlnet consists of the computing resources for educational use by members of the Rice community. Information Technology manages these resources, including the campus labs, software applications, campus network, and dial-up services. Owlnet comprises three platforms: UNIX workstations and Macintosh and PC-compatible microcomputers.

Owlnet Computing Labs are scattered across the campus, including one in each residential college. A complete listing of labs is available on the web at <http://riceinfo.rice.edu/Computer/Facilities> and in a free brochure available outside 103 Mudd Lab. Some of the larger labs are:
- Fondren Library (first and second floors)
- Mudd Lab (first floor)
- Anderson 218
- Ryon Lab 102
- Sewall 101

For Further Information. More information about available computing resources and the on-line account application form for new accounts can be found on RiceInfo’s computing webpages at <http://riceinfo.rice.edu/Computer>. Students who need help or wish to ask a question can contact the Consulting Center, 103 Mudd Lab, 713-527-4983, <consult@rice.edu>. Consulting staff can help students get started and guide them to additional resources.

Student Health and Counseling Services

By paying an annual student health service fee, all students gain access to both the Student Health Service and the Rice Counseling Center. Detailed information on the care and services each provide is available from both clinics.

Student Health Service

This outpatient primary-care clinic in the north wing of Hanszen College is staffed by two physicians and two nurses. Clinic hours are from 8:30 A.M. to 5:00 P.M., Monday through Friday, during fall and spring semesters. For after-hours and weekend medical care, students may choose among a number of local hospitals. Students must pay for all medical care outside the clinic’s purview, including blood tests, x-rays, and outside physician consultations. Should such medical care be necessary, students are urged to review their insurance coverage and pick the best available option.

In serious emergencies, students should call the Student Health Service (extension 4966 during work hours) or the Campus Police (extension 6000).
The clinic is open full time from the first day of Orientation Week until the day before commencement. It is closed during the Christmas break and the Thanksgiving and Easter weekends, but it remains open in the mornings during midterm breaks. The clinic is also open for reduced hours during the summer months.

The Student Health Service provides the following:
• Primary care for illness and injury with referrals to specialists when needed
• Maintenance of health records for all students
• Immunizations
• Contraceptive counseling and routine Pap smears
• Allergy shots (students must provide serum after a specialist allergy workup)
• Physical examinations (e.g., for employment, transfer to another school, or scholarship expeditions)

**Health Insurance.** All Rice students must have health insurance. Students may purchase insurance through the university, as described in a brochure sent to incoming and returning students each summer; dependent coverage is also available. For additional brochures and applications, students should contact the Cashier’s Office, Student Health Services, or the Rice Counseling Center. Rice’s group coverage for the 1999–2000 school year is effective from 12:01 A.M., August 15, 1999, until 12:01 A.M., August 15, 2000.

Students who have other medical insurance should complete the Medical Insurance Waiver Form, which is located at [http://dacnet.rice.edu/services/health/](http://dacnet.rice.edu/services/health/), by August 15, before classes begin, to avoid automatic billing for coverage.

Students who sign up for the Rice Student Health Insurance Plan must submit their application on-line at [http://dacnet.rice.edu/services/health/](http://dacnet.rice.edu/services/health/) by August 15, before classes begin, to avoid automatic billing for coverage.

**Confidentiality.** The Student Health Service physician–patient relationship is a confidential one, and medical records will not be released except as required by law, or when the patient poses a significant risk to herself or himself or another person.

**Rice Counseling Center**

Rice Counseling Center, in 301 Lovett Hall, addresses students’ psychological needs with various programs and services. The center is open year-round except for scheduled holidays and occasional all-day staff retreats. Office hours for counseling and consultations are 8:30 A.M. to noon and 1:00 P.M. to 5:00 P.M., Monday through Friday. Students can make appointments by calling 713-527-4867 or by coming by the center.

Typically, most students who use the counseling services bring with them very common concerns: roommate problems, breakup of a relationship, academic and/or interpersonal anxiety, family problems, difficulties adjusting to Rice, or confusion about personal goals, values, and identity. Counselors are equipped to handle a variety of issues, from substance abuse, eating disorders, and sexual assault/abuse to date violence, depression, and the coming-out process. Rice Counseling Center offers both individual and group counseling as well as educational workshops and programs.

When students clearly need prolonged or specialized counseling or treatment, counselors refer them to an outside provider. The students, or their health insurance, must pick up those costs. All students who have paid the Health Service Fee are eligible for initial assessment sessions, consultations, crisis intervention, and educational programming. Individual or group counseling may also be available, if appropriate.

The Rice Counseling Center provides the following services:
• Initial assessment
• Short-term individual and couples counseling
• Group therapy and support groups
• Medication consultations with the center’s consulting psychiatrist
• Other consultations (e.g., on how to make a referral or how to respond to a friend in distress)
• Educational programming (e.g., various presentations on mental health issues)
• Crisis intervention on a walk-in emergency basis during regular office hours; students may call 713-527-4867 for assistance with emergencies after hours or on weekends

**College Assistance Peer Program (CAPP).** In this peer counseling program, students who have been carefully selected and trained in listening skills and mental-health education serve as supportive listeners and referral sources for other students. They also assist the center with its educational programming.

**Students with Disabilities.** Because students who have physical limitations may find it difficult to reach the Rice Counseling Center’s third-floor location in Lovett Hall, staff will arrange to see those students in a more accessible location on campus. Students should call the center to make these arrangements.

**Confidentiality.** Counseling services are confidential: Information about a student is not released without that student’s written permission. By state law, confidentiality does not extend to circumstances where (1) there is risk of imminent harm to the student or others; (2) the counselor has reason to believe that a child or an elderly or handicapped person is, or is in danger of, being abused or neglected; (3) a court order is issued to release information; (4) the student is involved in a criminal lawsuit; or (5) the counselor suspects that the student has been the victim of sexual exploitation by a former health provider during the course of treatment with that provider.

**Disabled Student Services**

It is the responsibility of this office to coordinate campus accommodations for all students with documented disabilities. Adaptive equipment, such as assistive listening devices, recordings for the blind and dyslexic, temporary mobility assistance, etc., is available for students with specific needs. Information is maintained on scholarships, internships, and other resources specific to students with disabilities. Counseling and advocacy are available as well as consultation on the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973.

**Student Resource Centers**

**Rice Memorial Center/Ley Student Center**

The Rice Memorial Center/Ley Student Center provides a base for a range of student-centered activities. It is also an informal place where students, faculty, and staff can congregate. Individuals meet over casual meals at Sammy’s Cafeteria and drinks at the Coffeehouse and Willy’s Pub, which also offers pizzas, sandwiches, and Smoothies as lunch and dinner options. Others browse through the Rice Campus Store. Farther into the group of buildings, students find an array of offices, programs, and resource centers, including the Career Services Center, the Community Involvement Center, the Office of Academic Advising, the Rice Program Council, and the assorted student, international student, and graduate student associations. The campus radio station KTRU has offices there, as do the *Thresher* (the campus newspaper) and the *Campanile* (the yearbook). The
Rice Memorial Chapel anchors one end of the two-center complex, which also houses the Association of Rice Alumni. On any given evening, the larger rooms may be busy with meetings or catered dinners, and members of the Rice community regularly tap the facilities for special events, from parties and concerts to weddings.

**Career Services Center**

The Career Services Center is open to everyone in the university community. Undergraduates unable to decide on a major, career, or graduate program, or those who lack direction in the path they have chosen, may benefit from career counseling; testing is also available for those interested in a more analytical approach. Peer counselors assist both undergraduate and graduate students with résumé or vita writing, interviewing, and job search strategies.

The center sponsors workshops, career panels, and various career fairs each year. Students will find details on individual events publicized throughout the campus and in *Career News*, a center newsletter. The Career Library also has a substantial collection of resources, including literature on a broad range of occupations, material on locating and securing employment, and information on summer jobs, individual companies, and graduate schools.

Representatives from business, industry, and other institutions visit the center each year, seeking both summer workers and full-time employees. Any interested student may schedule interviews with these representatives. Students looking for full-time, part-time, or summer jobs should also check out the listings in the Career Library.

Undergraduate liberal arts majors seeking to parlay their B.A. degrees into a business career may want to consider the Rice Joint Venture Program, which is sponsored by the Career Services Center. Students accepted into the program undertake internships with Houston-area businesses during one semester.

**Office of Multicultural Affairs**

Located in the cloisters of the Rice Memorial Center, the Office of Multicultural Affairs responds to the academic and social needs of ethnic minority students at Rice. Primarily providing counseling and support, the office maintains its own library of information on graduate schools, jobs, fellowships, internships, and other opportunities available to minority students once they leave Rice. The office encourages cross-cultural programming on campus and attempts to promote a general awareness of issues related to cultural diversity. The Office of Multicultural Affairs is central to the university’s continuing efforts to recruit and retain more minority students.

**Health Education Office**

Also lodged in the cloisters of the Rice Memorial Center, the Health Education Office runs programs on such issues as sexual health awareness, substance abuse prevention, nutrition and diet, and acquaintance rape. The office also provides students with private consultations and a resource room containing health-related literature, including brochures, journals, and posters. Student volunteers with the Health Education Office participate in such groups as Students Organized Against Rape (SOAR) and serve as health representatives for their colleges.
Sports

Intercollegiate Athletics

Rice is a member of the Western Athletic Conference and a Division I-A member of the National Collegiate Athletic Association. The university fields teams for men in football, basketball, baseball, tennis, golf, and cross-country, indoor, and outdoor track. Women team sports include basketball, volleyball, swimming, tennis, and cross-country, indoor, and outdoor track. Home football games are played in the beautiful 70,000-seat Rice Stadium. The rest of the university’s extensive athletic facilities include Autry Court and Fox Gymnasium for basketball and volleyball, Cameron Field for baseball, the Jake Hess Tennis Stadium, the Rice Track Stadium, and the John L. Cox Fitness Center. Encouraging its student-athletes to pursue high goals, Rice prides itself on its dual goal of excellence in both academics and athletics; the rigors of one may not serve as an excuse for less than high-quality performance in the other.

Intramural Sports

The Department of Human Performance and Health Sciences offers a supervised program of intramural sports for all students, faculty, and staff. Anyone may participate in individual, dual, or team sports; swim meets; and track and field events. Interested students, faculty, and staff may also form teams to compete in the wide variety of tournaments available. While all students may take part in the university intramural tournaments, undergraduates may also represent their respective colleges in the college team sports tournaments that follow intramural play. In the past few years, Rice has seen more than 6,000 entries in 53 tournaments. Students are forewarned, though, that they participate at their own risk.

Sports Clubs

In addition to the intramural program, the Department of Human Performance and Health Sciences administers a sports club program. A sports club is a special interest group organized by students who want to play, and promote interest in, a particular sport. Club organization depends on student interest. In recent years, clubs have included badminton, cricket, cycling, dance, fencing, field hockey, frisbee, lacrosse, martial arts, rowing, rugby, sailing, shooting, soccer, softball, and volleyball. Students join these groups to increase both individual and team skills through a dual program of instruction and competition. They support the clubs with individual contributions, membership dues, solicitation of university funds, and various fund-raising activities. Again, students participate in the different sports at their own risk.

Student Automobiles

All students must register their vehicles with the Traffic Division of the Campus Police. Students must park in assigned areas and observe university regulations. Illegally parked or unregistered vehicles are subject to towing and/or fines by the university. Copies of University Traffic and Parking Regulations, a publication giving a detailed account of student privileges and responsibilities, are available from the Traffic Division or on-line at <http://rupd.rice.edu/parkingregs/>. Students must inform all guests of parking regulations; vehicles belonging to visitors who repeatedly violate these rules also may be towed or booted.
